

図2

$\square$ で  $\bigcirc + \bigcirc + \text{ア} = 180$     $\times + \times + \text{イ} = 180$   
 $\bigcirc + \times = 180 - 55 = 125$   
 $360 = \bigcirc + \bigcirc + \text{ア} + \times + \times + \text{イ} = 125 \times 2 + \text{ア} + \text{イ}$   
 より  $\text{ア} + \text{イ} = 110$     $\text{㊦} = 180 - 110 = 70$

(答え)  $70^\circ$
